

Rei Duraj

New York, NY | 347-356-8547 | durajrei@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, HTML, CSS

Frameworks: React, Next.js, Vue, Angular, Tailwind, Express, Django

Database: SQL (MySQL, PostgreSQL), NoSQL (MongoDB, Firebase), AWS

EXPERIENCE

Xharra Group

Full-Stack Developer

Remote (Prizren, Kosovo by way of Brooklyn, NY)

03/2023 - 10/2023

- Developed and maintained Xharra Group's website utilizing React for front-end development and Node.js with Express for back-end services, enhancing site performance and user experience.
- Achieved a 40% increase in website traffic through the implementation of a responsive design and the integration of a RESTful API for dynamic content updates, improving client engagement and prospective client interest.
- Leveraged user tracking tools and analytics to identify and implement continuous improvements, resulting in a 25% increase in user session duration and a 15% decrease in bounce rate.

Jane Street Group

IT Contractor

New York, NY

02/2022 - 02/2023

- Efficiently managed and resolved over 1,500 IT-related tickets, including network issues, operating system updates, and physical computer upgrades leveraging JIRA for ticket tracking and prioritization.
- Developed and maintained comprehensive documentation on IT processes and troubleshooting guides, leading to a 25% reduction in recurring tickets for similar issues and promoting self-service among 2000 employees.
- Delivered virtual and in-office desktop support, improving employee productivity through streamlined communication.

Total Deployment Solutions

Supervisor & IT Team Lead

New York, NY

09/2019 - 02/2023

- Directed and supervised a team of 15 employees in large-scale project operations while also acting as a liaison between business users and technical teams in order to develop solutions that meet customer needs.
- Spearheaded all major migration projects for 500+ users, spanning desktop to ThinkPad and operating systems migrations, achieving on-time completion with 100% budget adherence.
- Trained new IT Technicians according to company standards, and onboarded new hires.

TECHNICAL PROJECTS

ReiDuraj.com - [Github](#) | [Demo](#)

- Crafted a personalized portfolio website with meticulous attention to detail, to emulate the nostalgic aesthetic of the Windows XP operating system, creating a unique and engaging user experience.
- Devised a responsive and visually reminiscent frontend using TypeScript and Tailwind, while also meticulously replicating cornerstone Windows XP programs such as Internet Explorer, Paint, Winamp, and MSN.

ReizFit - [Github](#) | [Demo](#)

- Conceptualized and developed a daily health tracker, which offers users a place to track their daily calories, supplements, weight over time, and other features for wellness management.
- Orchestrated an intuitive frontend experience, leveraging TypeScript and Next.js to create a responsive and visually appealing user interface, while Tailwind enhanced design aesthetics and streamlined development.
- Engineered a robust backend utilizing Prisma's ORM and PlanetScale's MySQL-based platform, ensuring type-safety, efficient data management and scalability for a seamless tracking experience.

Reiz.live - [Github](#) | [Demo](#)

- Developed a dynamic live radio web app with Typescript, React, Next.js, and THREE.js, seamlessly blending audio streaming with captivating 3D visualizations for an immersive user experience.
- Implemented robust backend functionality using Express and Sockets.io to facilitate seamless user communication and synchronization. Successfully deployed frontend to Vercel and backend to Render.

EDUCATION

The Grove School of Engineering, City College of New York

Bachelor of Science - Computer Science

New York, NY

May 2021
